Co-op work Practicum

October 2024 – November 2024

McDonald's Canada (Part-Time)

Crew Member

April 2024 – Present 2024

Dupanshu

FULL-STACK DEVELOPER

Software Developer proficient in C#, JavaScript, Frameworks, Third-Party APIs, website and app development. Recognized for quick learning abilities and strong problem-solving skills. I look forward to elevating my skills and expertise for innovation in a software development role.

RECENT PROJECTS

1. JSON File Creator App – C#, ASP.NET MVC, JavaScript, CSS

— This app provides an interface to user to enter the data in an order that can be stored and converted into a JSON file. User can later download it through the link and use it in the desired way.

2. [Submit-your-Video](#) / [Gift-Card Pages](#) – WordPress, JavaScript, CSS, Elementor

— These pages were part of my Co-op work practicum Projects. I worked for a skate video streaming platform for 2 months. In this time, I worked on three projects, one involving creating only documentation and these two pages as well as their respective documentation for future reference.

3. [Eleve-Restaurant](#) – ASP.NET MVC, SSMS(SQL Server Management Studio), Figma, CSS

— A class group project in which we created a restaurant website with landing page, bookings page, menu page, about page and admins page which requires admin login info to make changes on the website.

4. To Do App – WinForms, ASP.NET

— An windows form application I created as my class project to showcase my skills related to working on a desktop application.

5. [Josify-shop](#) – React.js, CSS

— An e-commerce website for interactive user interface. Created different pages and hosted it on Netlify.

VOLUNTEER WORK

- The Den – Software Developer
- MITT – Educational Tour Assistant
